Leriba Lodge cc

Attention: Leroy van Dyk

Letter of Conformation

Further to our discussions, I would like to confirm that SpecSafety was contracted to assist Leriba Lodge with creating and implementing a health and safety program as well as to ensure compliance to the occupational health and safety act by conducting monthly visits to assess and update the safety file on site. Below is part the solution that we provided for Leriba Lodge.

Service Solution

Leriba Lodge did take into consideration the below acts and regulations when creating their safety system.

- Ensure that Legal compliance to the act.
- General Administrative regulations
- General safety regulations
- Electrical installation regulations
- General machinery regulations
- Environmental regulations for workplaces
- Regulations for the integration of the occupational health and safety
- Electrical machinery regulations (where applicable)
- Working at heights
- Hazardous chemical regulation
- Facilities regulations

A the time of the completion of the implementation of the system it was found that Leriba Lodge was compliant to the regulations and OHS Act 85 of 1993.

Please feel free to contact us should you have any questions.

Regards

Leonard van Antwerpen
